now have electric lights in the
third story? Well, we have. Each
room is supposed to have one
sixteen candle power light in
it but I have wired up my own
room and can have three lights
going at once in different parts
of the room.

I have lots of fun with the
pups here. There is one that I like
especially. I suppose Evelina
has told you about her though
hasn't she? So I need not say
anything.

I really "must study so good-bye,
Seddy."

P.S. I think I told you that I received
the box all right & send my most
sincere thanks. I am going to
write to Grandma & Uncle George as soon
as I can find time.

Dear Mother:

I am going to try to write to
you oftener. Won't you try to do
the same to me? I let Evelina
take the last letter that you
sent to me so cannot answer
any of your questions except
those which I remember. Concern-
ing that picture that Uncle

George wants taken, I have no
camera at present that I could
take it with but can get one
from someone. What size does
he want the plate? I can make
it either 5x7 or 4x5 or 3 1/4 x 4 1/4

I wish you would ask him please.
Yesterday afternoon I went
up to our house and got the
gold watch for Willis. He said
that you said that he might
use it. It is at the jewellers now
and it wont cost but a little &
have it fixed. I also got my
silver watch but I guess if
I wont over keep good time again,
anyway that is what the
jeweller told me. Can I wear that
gold watch of Uncle Selen's?
I want a good watch & wear
around and I will be very
careful of it. What is the matter
with it, or is it all right?
May I take it, please? It wont

wear it except when I have
good clothes on if I may have it.
Do I see any cost of a gold or
silver watch for or show
that I can have? I have now
now and have to dig into my
pocket with two fingers when
I want to pull out my old
watch. I wish you would please
answer these two questions and
also a few others.
I want to fix up a coat of lumber
down on one side of my room
and have nothing to do it with.
How could I make one and what
can I get from our house and
where is it? I am awfully anxious
to have a door down in my room
so please give me some suggestions.
I told you, didn't I, that I
