

Calgary, Alberta

Aug. 8, 1908

got here last night
some times sleeping.
train got up at six
and have been looking
over the city. It is not
as ~~big~~ as Berlin, but
just as clean streets
electric lights and
every modern improvement.
We passed thro a town
on the prairie named
Swift Current that had all
the streets & station lighted
with natural gas.
I leave Calgary for High River
at 9:30 AM Selden
