

3243 Burton Ave. Lynwood, Calif.. May 29/27.

Dear Mother -

Your lovely letters have been such a pleasure to us. I am so glad that you are ~~so~~ much better after your sickness. I do hope that you will not see a lot to do in Oberlin and get worn out, either doing it or thinking you ought to !! If you only had Grandpa there to send you to bed at nine o'clock ! I am a father now anyway. I could make believe that I was Grandpa long enough to send you to bed anyway!!

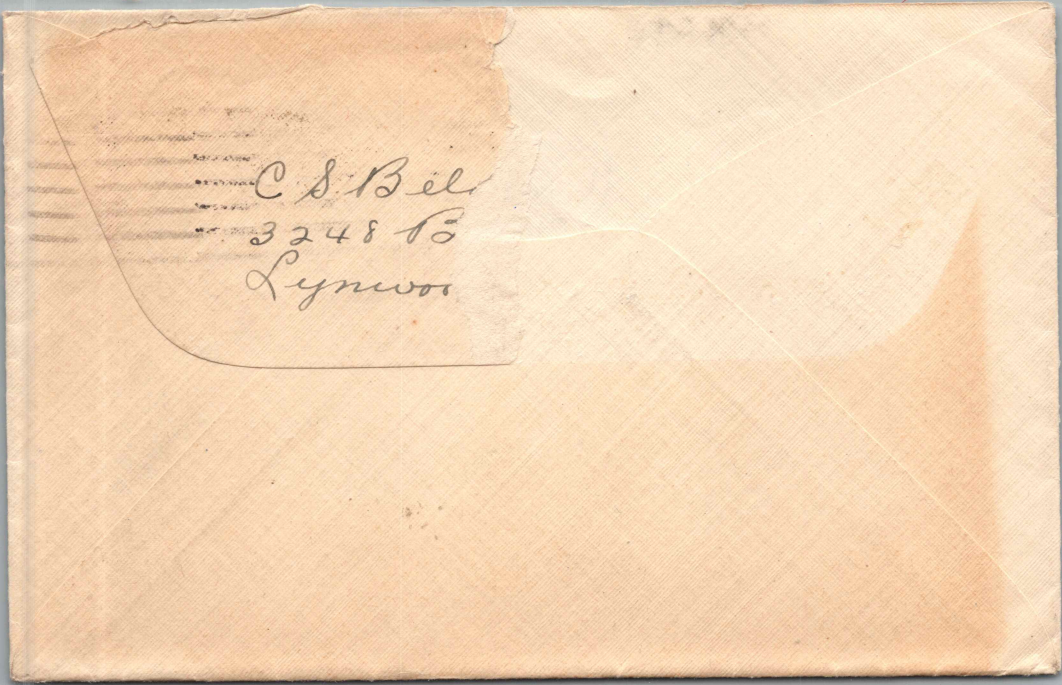

As soon as we can we will take some pictures of our son so that you all can see him. I dont know just how soon that will be, but maybe in a week or so. Coral seems to be awfully proud of the fact that so many people think Teddy looks like me ! He seems to have my chin and mouth and bulging eyebrows, snorts just like me too. And yawns just like Coral ! He sleeps most of the day and all night so far just fine, and hardly ever is heard from - in fact Coral has to go in and look at him some times to make sure that she has not just imagined that we have a baby ! Coral is still resting a great deal and not doing much work - sleeping lots and being very careful. I am so thankful she is so well. She looks so happy too - I wish you could be here too, you would be happy to see our nice home and your nice new grandson that looks like me.

Will writes that he expects to go to Oberlin for the summer. That will be fine. Wish I could be there too. Love to you & Mary
Selden.
