

Stopped a couple of days & visited with her on the way here & I showed her your letter. She would like to get acquainted too, so please write. She understands our family temperament so you can feel that you are writing to a member of the family instead of to an outsider. It will be a terribly long time until she really will be a member of the family, tho.

You are right when you say that it is wonderful almost like fairyland that one person can love another so much & have the same amount of love in return. I have never really believed that such an ideal thing could be true but love is an ideal lower & more perfect than I ever

Calgary Alta

Jan. 27, 1914

Dear Mary

I am in Calgary again & get more close to my teeth. It is not so much fun this time tho, because local is not here and the weather is the limit. It has been between thirty & forty - five below zero every day for a week.

That was an awfully nice letter that you sent me May, you surely can write to local any time & as much as you like. I would like to have you & so would she. Her address is Miss Coral P. Fowler, Starnore Alta.

dreamed that a human being could be. I am continually surprised & most extremely thankful. Each letter from her surprises me, it doesn't seem as tho it really could be true. Knowing that she loves me makes me want to try my hardest to make a success of life & the most wonderful thing about it is that she wants to be a success too because I love her.

Please do write to Coral & to me too.

I hope you are not studying too hard. Mother said you were intending to go back to Yale again next year. Are you? I wish you might visit us at Chinook some time but I suppose you would not like to, very much. You have an invitation to come, always. I hope Mother will come when Evelina goes South. We are crazy to have her & we need her too.

Lots of love Selden.
