

largest, juiciest + best shipping & selling variety. The Bartlett pears are going to bear some fruit but not very much - the trees are pretty small. We are wondering if maybe it would pay us to either close the Studio during the fruit picking season or get someone to run it, + we go to Yucaypa + attend to the picking ourselves. It would be a fine vacation, besides, probably we could save a lot of fruit that tired people would waste or steal. I wish you could be here + see the orchard + the country around.

Hope you signed + returned those land transfers just as soon as you received them. I don't know what Mr. Henning is doing with the Chinook farm, but I certainly would hate to have it come back on us now.

A letter came a few days ago from the Dept. of Education at Edmonton, Alta. to say that I would have to pay up the \$200. you borrowed to go to school with, as I had signed your note + you had not paid it. I will write them that you will be teaching soon + will arrange with them to settle it up.

When does your school end? What have you in view or in mind to do? We are considering selling the Studio. Please write  
I have to wear glasses now. Selden.

Part of a letter from Aunty at the  
time of the Eclipse. I thought this  
was worth about putting off the  
eclipse on account of the  
cold weather!
