

Mount Royal College,
Calgary, Alberta,
October 20, 1922.

Dear Mother;

I suppose the marriage ceremony has been successfully carried out before now, and the fortunate couple will live happily ever after. I am sorry that I wasn't able to help in any way. I am hoping now that I may be able to spend next summer in Oberlin. I think that I could put the time in to good advantage in taking up some work in the summer school.

The work here is much more pleasant than where I was last year. I wonder if you happen to know Dr. Miller of the China Inland Mission? His son is Dean of the boys in our school. Dr. Miller made a tour of the U. S. some few years ago. Mr Miller says that he ^{himself} grew up in the same compound with Dr. Hudson Taylor's grandson. Mr. Miller has taught in China since he graduated from the University of Manitoba. A boy from Oberlin went over on the boat with him. By the way in the Y.M.C.A. in this city there is a picture hanging ^{taken} of Merle Davis teaching a class of Japanese boys.

Selden has not yet been able to get a hold of anything suitable, and may decide to try the East soon. He took me over to meet the Kids the other night.

Well I must close for the present. Kindly pardon mistakes - they are partly due to the machine, which is the only one that could be spared from the typing room.

Your's truly

Will
