

Monday, Nov. 3/24

Long Beach, California

Dear Will -

I just came across some pictures that apparently Selden had meant to send to you, so I am sending them along. We kept the plate of your drawings.

Selden is better, but not strong enough to be back at work yet. He came down ^{to the Stables} for a few minutes this afternoon for the first time. He feels weak + lies down a great part of the day, but his strength will soon come back. I want him to join the YMCA + take the classes as soon as he is able.

How are you getting

along? Please write &
tell us what to do about
the old car. Shall I
write & tell Mother to
phone the junk man as
she suggested, or shall
we write to Arms or what?
Mother doesn't want it in
the yard another winter -
she says it would be
no use at all then. I
told Mother we were
waiting to hear from you.
I have not written your
mother about Sledge being
sick, but shall this afternoon
if I can get time. Mr.
Manning is still helping
me with the work & doing
fine. Excuse scrawl &
haste - Coral.
