35 TO 50 TONS MELTED DAILY.

Bristol, Conn.

Stenographic Letter

May 10, 1894.

Dear Mr & Mrs Belden:

Mr Belden's very nice letter in acknowledgement of our invitation came duly to hand in time to be read last night.

This was an anniversary member's supper gotten up by the social committee of which the writer is chairman, and it was apparently very successful indeed. Had a number of pleasant responses to toasts and they were much pleased to hear from you and glad that it is as well with you as it is.

We were much pleased to hear from Mrs Belden occasionally while she was on our Active list but now that she is on the Honorary list we seem to miss that pleasure.

Wishing you and yours all of the best happiness and blessings,

Yours sincerely,

J. S. Chidsey
