Rev W. A. Belden
Clifton Springs
New York

RECEIVED
JAN 10 1880
NEW YORK

256 W 54th St

Sept 18+

Dear Bro Belden

Your letter was received when I was in the city last week but I delayed writing until I could send you the slides you asked for which I have just placed in the PC I hope it will prove satisfactory.

The difficulty you experience with the oil lamp is common to all. The one you have McAlister is the best but no oil lamp can properly illumine

a photograph, then painting
pictures light of well but
photographs never. There
are a thousand and one
petty troubles and vexations
about ^{operating} the best stereoplum
ever made I was talking
last week with a man
who does nothing else but
illustrate lectures and I
find he was no exception
to the noble army of
martyrs who have got
hot over it in more
senses than one.

I am glad to know
both from yourself and
dear Mr. Magie of your

great and continued improve-
ment and trust you will
soon be entirely restored.
I am still preaching at
168 St & Washington Av
(Morrisania) where I have
received and accepted a call
good things are I trust in
store for us. I am trying
to do a work that will
tell among the young people
and not knowing your
address I asked Mr. M.
to ask if you would be
so good as to send me
in the price for cylinders
and the Colored Slides
of the Jerusalem in its glory

and its full (the 2 panorama
slides) these & the proofs
were what I understood
them you were to return
me

If it is possible
I wish you would get them
to me as soon as possible
for I can use them now
to better advantage than
ever after

My kind regards
to Mrs B and the Children
I often think of them in
connection with my delightful
visits to B. redington

Very truly yours

Spencer L. Huller

PS I think I write as if it were I that
had had previous notice of you
