

My first  
a personal  
message  
of the N. S. Synod  
to the  
Assembly

Passaic Oct. 9

Dear Arthur Baldwin.

Your of yesterday is  
at hand. The Sunday School programme  
is admirable. I felt the expediency of that  
which Dr. Butler had outlined, but was  
powerless of myself to suggest a reast-  
ment of it. Yours is clear, has touch,  
and is available. I am much re-  
lieved by the sight of it and am ex-  
ceedingly thank you to you for working  
it out. The title-page too is per-  
fect. I have engaged to hand to  
the printer some pages of copy to-  
morrow morning. As soon as I  
can get a proof I will send  
it, to let you see my ideas and  
plans. I am in the dock on one

point - whether you have a notion of  
sending me 500 little pages to be  
used by my printer; or let him  
imitate the samples which you  
will send. If there were time I  
would have mine set up, corrected,  
and then sent to you to be set up  
again by your printer.

But alas! it is not yet nearly all  
in membership. I hope to have  
my new study volume to issue  
and to have. keep in the pulpit Oct.  
20 - and so not be utterly behind  
when Synod meets. "The Future Effort"

is in the steering pass. I have talked with  
Dr. Luker. He accepts with satisfaction the  
idea of an enlarged and active Primaevale  
Com. I think we can get substantially  
what we want.

Yours very truly  
P. D. Lawrence  
Sworn also taken both sides }
