My dear Mrs Belden

We are greatly interested in Miss Stone who has been abducted.

Lillie wants to publish something about her, and knowing she was a friend of yours, she asked me to write and ask if you wouldnt write and tell

something about her. Mrs Mayu was here this week, and says she is a member of the S. M. U., but I don't recall her. I think it's a pretty serious case, and our government ought to do something of a heroic character. If we pay the ransom will only make matters worse.

Well, you never stopped on your way from Clifton & we all lay this up against you. You

character will be lost in this home - have success you receive your pledge. How are you all? I am so glad of this chance to write you. How love to the dear girls & take you from dear Aunt.

Affectionately Yours
