Dear Dr Gracy

I have just had a good letter from Bro Belden full of plans for I.M.U. I have forwarded his letter to Mrs Thayer at Clifton thinking that she can help him in some of his plans. He wishes to put short notices in the local newspapers of Ontario Co. This may bring many who meeting would it not also be well to request all ministers along the lines from Clifton to give notice from their pulpits ~~from~~ from Sabbath forenoon. Bro Belden also speaks of bringing his Scioptron and a few views of Bulgaria and Turkey. He thinks other Misses might bring some of their choicest slides. It strikes me that this would be good. Say to have an evening with pictures from "Mission fields" each are given limited time to explain his views, I presume that you have heard that it is probable that I am not to have the joy of attending I.M.U. this year. The Bd. of For Missions

His declined (in good of it health) to return
Melbourn this year. And have called
me to the work among Nez Perces Indians
with Idaho, for one year. Experimental
if strong ahead of the year then off to drain.
I have accepted, and may be off soon,
which packing my trunk expecting to
start; but Tuesday I rec'd word
to halt and wait further orders.
I know not what they will be,
the Secy simply wrote "we are con-
sidering other plans for you than Nez-
Perces" I am now waiting, willing
for service. It may be such that
I can attend D.M.U. ~~I cannot~~
of Idaho then I must be off
in few days, God bless you
dear brother in all your efforts for
D.M.U.

Yours in the best of bonds
Eugene P. Druelap
New Wilmington
Penna,

P.S. In view of Bro Belden's kind offer to furnish
L'Esperance &c. would it not be well to get
a notice to Misses to bring each a few of
choicest news of field? E.P.D.
