

New York, March 26, 1895.

Dear Sir:

The "Review of Reviews" wishes to give a forecast in its May number of the conventions to be held by the leading scientific, educational and philanthropic associations during 1895. May we ask you to send us as soon as possible announcements of your own association, including dates, place of meeting, names of officers, and other details so far as at present determined? Such announcements should reach this office at once, in order to secure insertion in the proposed article.

Very truly yours,

Editor "Review of Reviews".
