

I ~~want~~ have found out, I think, Marion Davis' sister in the freshman class. She is in my English class and in gym. I haven't spoken to her for she is rather stuck up looking and very scornful. I don't care a bit for her looks. She is great friends with a Marion Chute, a dear pretty little girl who I think must be a sister of Helen Chute. They look alike and talk alike. I have never spoken to her either, though I wouldn't be afraid to if she were not always with Miss Davis.

Did you know that Uncle George had been very sick? Aunty wrote yesterday and said that he was better although the doctor said nothing of his getting out of bed.

you are so clever to make over
Miss Bowman's face color. It seems
as if you could make so many people
happy with your talents and clea-
ness. I wish I at least could draw a
tiny bit. I think with Aunty that
our twins are splendid. How
much they have achieved and
how beautiful to look upon."

Your losing your L. L. S. pin
reminds me how much I want
to join society. It seems in some
ways as if this was just the best
time when I have easy work. I
don't see as low any better
physically than I have been
all along and don't see as there
is any hope of my being. Perhaps
if I had not such light work I
might be worse. If I didn't think

that Mamma disappointed I would ask Aunt Penny to
try Christian Science. I don't see any reason why
she couldn't and might anyway.

Mary Cochran must be lovely as a hostess. I
am so glad you go to see her. Perhaps we don't
have the same kind of college life as the girls at
the halls but we have things that they don't.
For one thing I think it is nice to be able to
entertain in your own home. To be sure we haven't
had a thing here this year but the house has been
so stirred up and Bessie's underwear, but I hope
we can have something at Christmas. I don't see

time to have a small spread for girls, some of the
new ones in my class. But I would rather not do
anything than do it poorly or have the house out of
order. I would like to have a high school crowd
sometimes and several individual girls to supper,
and perhaps a Freshman party at Christmas.
What about the New Year's party you and I were to
have this year? I wish we could.

There is a new organization just beginning in college of
all Missimeres' children, both home and foreign. I think
it will be very nice. There is a real swell Mr Hall from
where I don't know who seems to be starting the club.

It will be merely social.

I do hope your Y. W. will be a success. I haven't yet joined here, although most of my friends have, Mabel, Ruth, Sarah.

I have seen several jackets like your green one with belts on. I am sure they were old jackets fixed up by that method. I never would have thought of their not being this year's if I hadn't been up to all such devices. If you had that dress belt you could tack it on, add buttons and the jacket would not look so markedly old style.

I haven't an invitation to the Thanksgiving party but expect to go with Mabel. I know I will have as good if not better time than if I went with a boy. You know Mr Kible took me to the O.S.A.

(Columbus) came a week ago. I was rather afraid he would ask me for this but I have been agreeably surprised.

Do write to grandma. She thinks so much of you and loves to hear about your work. We try to write every week and we hear from H. worth usually that of Mr. Dear grandma. I do wish she might have been spared this trouble with her eyes.

I was very interested in all you said about your girls. It really is quite like Belinda's school.

I believe I had better stop and write to grandma and Mary.

Lots of love from us all.

Squawkie.
