

"
My dear Temple"

Seize the arms
of a chair, clutch wildly
at them, for I am about to
give you a shock - not -
I want you to rebound to
such an extent that you
will go farther on the re-
bound than you do on the
shock. I am not giving
you the Ocean Wave this
year - The waves are many

persuade any way, and I see that
he thinks it would be perfectly wild
for us to take our little savings out
of the Bank in order to go. Now
I have decided and am not wild
over it now any more. I seem tho'
to feel that my enthusiasm will be the
means of your going to Europe, and if
it has worked that God I shall be only
too joyful. I have talked to numerous
people about the trip, but without any real
outcome as yet. Don't give it up my
dear. I know you need a change and
travel is such an Educator - & you
know this year you will be the better for
going to go again with us next. See -
I am not come going to say if you
don't go I want you here for as much
of your vacation as you can spare - but
I do. - want you to be wherever you are
this week eyes since you have been
travelling - but go to Europe - do - I'll try to help.

Chief of them being no
money to go with - but as I
read over the different trips
I find I'd do infinitely rather
go the \$350.00 trip that I'd
a great deal rather wait - I
think the \$350.00 trip is too
grand for any time - There
that lands at Gibraltar.
I know that I can't go, and
I know that I ought not to try
to make L.H. help me to go, for
on all working under great
