

Frank Allen, your dear
letter came a little while
ago. Mother, Sister and I
are in Libany - Ed has
just gone out to his Friday
evening bowling - and before
I go back upstairs to my sewing
I am going to scratch off a
few lines to you -

Yes I do remember Maynard
Taylor - very well - I think
he was so nice - Mother &
I are shocked that such a
splendid fellow should be
reduced to a state of mind

so sad as to make him
want to kill himself - I do
wonder if some one might not
have given him enough joy
to make him want to live - I
am so sad - for him for his
Mother, & the rest of the family -
for the Father may go - I hope
Some one human as well as
the dear Lord will comfort
each of them.

About Europe, I may be
well refrain from sending
myself any information
till I tell you - The time is not

wise yet - he thinks I
 am simply wild crazy
 to think of such a thing
 so we will let him have
 a rest for a very little while
 till he gets his breath, and
 in the mean time send
me all you can, or will
 you have the "Outlook" paper
 send direct. Mother and
 Aunt Mary are simply
 wild about this plan, I can't
 remember when I have seen

^{Mother}
her, so enthusiastic about
any thing. I really don't
myself see her in all case
go - nor one of us - but I
am waiting. I don't know what
a bit give up hope - I
thought if you got five &
I got five people to go in
each night on our trip home
in, if we could do the other
necessary things.

I'm worried very about Est
thinking I am trying to do

Something for you, he has
hardly even heard of the
scheme, & not at all till
after I had written to you.
and as to myself I never
thought of posing as a
sumptuous charitable
institution = I do think
it would be perfectly fine.

I am sorry if you are going
back to Glendale I think
you have given Glendale
enough of your good.

I am going tomorrow with
Lester & her Basketball team
over to Richmond Hills
Long Island - a trip that
will take us about two & a
half hours from our house -
I simply love to go about with
these charming young people
I want to write at length
but I am not going to -
I am trying to get ahead with
my sewing before my lovely
Garden makes me spend
so much time in the Sunshine
& with dear Nuthin too.

Aunt Mary has been
here for a couple of
days helping me sew
suit that perfectly dear
of her -

In ten months will
be fifteen tomorrow - Next
of - with dear love, I
I did hug Grandma
this morning and I asked
her if that would not do
for the hug you ordered
up for her in your letter.

and this for us - She
said it would - so
we will call it done
Sincerely

Acquaintly -
