

Please send the girls.

Sat. Sep. 15.

Dear Lady,

The filling in that bad tooth of mine was nicked off; so I went yesterday to have it fixed. Dr. Miller put in a silver filling and then took an X-ray of the tooth to see how bad it was. I told him I wouldn't have it treated now, but might in Baltimore if it needed it. Today I got the X-ray picture & it shows there is no abscess at all — that tooth, you know, that several dentists told me to have out, the one that had the ulcer on it for five or six years. What do you think of that? He said it is perfectly all right. The X-ray cost only three dollars. In Youngstown the price is ten and in Egypt I think five; so when I found he'd do it for three, I thought it'd better have it done. I'm so relieved — now that's off my mind.

Monday — Thank you for your nice letter, which came today. I thought of you at church time morning & evening yesterday & wondered if you had a cab or how you went. You know, Lady, you must be careful of yourself for our sake; nothing we could ever have in money would make up for losing you or for having you sick or unhappy, as you would be if you got laid up from walking too far!

2

The letter you sent on Mrs Ward's
marriage announcement. The bride &
groom announce their own marriage.
I'd send it to you but want to write
her first — when I get around to it. Thank
you for her note of last summer. What she
said about patches was encouraging, don't
you think so — that it is the best patch in
the East to her mind?

Well, I shall soon be there & in a
way to know what I think. I expect
to leave here at 8 o'clock October 3rd
the morning, arriving about 4.30 after-
noon.

I bought a hat for \$2.78, black velvet
mushroom, up very about it, but
couldn't seem to fix the old one
& this was cheap. In the store where
I got it almost every other hat was
for 16 to 18 dollars. There was a sweet
one, just right for me, becoming

and youthful, for ³ \$7.50. But I did not
get it!

I'm so happy about your roomers. But I
do wish you could have Mrs. Andrews' boy
too. Did you try seeing if he still might
come? Or are there to be no boys but
those who are sent by the government?
You seem not yet to know what it
is to do. Mr. Wale, grad. student who
was instructing last year & reappointed
for this, told me he didn't know yet whether
there would be any work for him or
us. Dr. Finker (the Beacon translator)
has gone down to Washington
into publicity dept. of Red Cross. You
remember him, Mamma. I
think you need write me to hear him
speak of Christina Rossetti at English
Club. It is fine in his book.

There is one man registered for the graduate school this fall, as far as present information goes.

I think it is very nice you did up the front - if you're not too tired for it.

Do you have Mrs. Artiss run to door & telephone & wait table for you?

Is Miss Hard still there? I hope she

will try to get some new silk to match coat lining and patch it, for it is about gone through.

If she is there, will you ask her if there were any of the black velvet buttons like on my black cape-do-chine dress left? If so - enough of them - I'd like to put them on the sleeves. The ones Pruit sent were soiled & I can't use them as the others on the dress are velvet.

But don't go to any great bother about them for I don't have to have them; the dress is all right without them. Miss Hard would know what they are like, but if she's gone you wouldn't know which to look for.

I have done quite a little sewing "one way or another" since I came. For Miss Hard I put the trimming on sleeves of white silk dress & buttons on the cuffs & they look fine. I showed all my things to Mrs. Treat and she was very pleased. She has rented our rooms to a man & his wife, old friends, & is going to stick on there while her mother-in-law lives.

I hope soon to hear that Ellen has a maid & a good one.

Please send this to both the girls.

Lots of love
130 Wall St New Haven, Conn.
Sep. 16.

I don't know who
hasn't had this. Have
you Lady?

No time to add to this.
Can you send my Sunday
letter to Polly?

All well here. I am
just going down for
several errands, and the
cars now run only
Every three hours.

Mamma.
I did not make cord, but
can yet.

Put, when do you leave Chalvers'
Place?
