

Dear Mary -

I think I've succeeded  
in gathering up all your  
articles - We met every thing  
as up that lady with tail  
flying that Ellen down, and  
I couldn't get her in. I'll send  
her some day if you want her.

I learned a very interesting  
story about my ancestors a  
few days ago, which is  
sorry I haven't time to relate

to you now. I know you would  
enjoy it.

My family have gone to  
Portland, and the captain  
of Alice & myself. We are  
keeping home together -

Grace has been very, very ill  
for about two weeks. They sent  
for Walter about ten days  
ago, and they thought then  
she wouldn't live, but she  
is better now, and they hope  
that the crisis is past, not

wily of this attack, but of  
her whole illness. Walter is  
still up there, but will go  
back to work soon if she  
continues to improve.

I have now something I  
officially wanted to tell you,  
but I can't remember what  
it was -

With love,  
M. M.

Please have the love  
transmitted lovingly.

Mr. J. Otto Samner.
