if Sarp will is getting on well

My dear Mary,

your interesting envelope full about

yesterday — have lots to say on all the subjects  
but only a note now. You is real peck

with the grippe. Dr. Johnson is taking care of  
him. The children are fine. I'm worried about  
you.

I'm sure I think a costume for commu-  
ment crazy. I'm not going if I have to wear  
one. Also I don't think I want to take the

time to design one. But any way what  
would there be to design a white part

if there is to be a blue time over it?

I'm crazy over Mary C's suggestions  
about lectures. Those base criticisms are

just what you could do well so much  
better than most people that you ought to

be able to get big crowds, I think you could  
work a lot of teams and in the bigger ones

have 2 or 3 a week for different crowds. You  
could work up the other things she suggests too.
