My dear Mary, I think your idea of the "pach-flat" dresses is fine. I think the name is an inspiration. Do you have it the other way "flat pach" but would "pach-flat" maybe be better? I'm so glad you have Miss Brown. I wish I had a Miss Brown. I will see that we vote for Beatrice Dorschner - as soon as I hear from you that you have decided on her absolutely. And I will suggest you next - Miss & trust you to remind me in time & I will ^{not} be too late - being made that way & don't want to take the risk for if I do it I want it to go through.

Don't get discouraged about the outfit for Lane & that's enough. I can't seem to keep on believing in myself after a thing comes back. I ought to send a thing out as soon as it comes back.

I got a hat - \$12.50 - chiefly because I want to have one for commencement - to cover my gray hair because I

I don't think we can look stylish without a hat. It is said gazette with a little lighon edge & flowers.

^{very fine feathers}
lighon bands with beech
the gazette underneath soft cream. Lovely bunch
of flowers on brim, 3 flowers flat on brim, green &
sailed & brownish. The hat is a big one, the
narrow brim in the back. I think it is quite lovely &
handsome looking, but Alice says "What does it match?"
Only gray would have matched my things better, I think.
I went to a luncheon today, had a nice time, at Mrs.

Foster's.

I don't get Mervin any thing from you, partly too
busy when I guess I really forgot it. She had lots
of little things at her party, you know. And we gave her
skates and that sort of set & candy and shoes and
Pit gave her socks and she had a lovely party.

Want you be home till after commencement?

I ought to write Dr. Harris & send that dress. Of
course I can't keep it for Mervin or cut it down next-
year. Would you like to have me send it to Dr. Harris?
Very lovingly your
Puis.
