

My dear little Nieces . 1894
Mary + Ellen .

I have only a moment
before leaving with
Aunt Ellen for Dr Beeching
but I want to tell you we
would be delighted to have
you come and spend the
Winter here with us.

The children will have a
Gimment and will be busy
with their studies. Perhaps
some things you would
like to enjoy with them
as physical culture and
drawing. They have just begun
the latter, while I suppose you
are quite advanced.
With love to much love & best
wishes
M. A. S.
