

I will do
anything to
help you
or any of
your family
that you
think best
trading at
Worcesters re

My dear Elie. I wrote you such haste
yesterday you may hardly have
understood what I intended and
may not know for I am so obtuse
often times. I thought a little rest
and change from household cares
would do you good, and for that
reason proposed the visit here
I would love to do this for you pay
all your expenses, and give you
freedom from every care just as
long as you could possibly stay
away from your home cares.
If you can use the tickets I shall
be very happy to have you do so, and
return you home in safety as well
but if it should not seem advisable
to you don't be worried for I can
get something for the tickets.

At first I thought of your being
Evelina and Poldi but then con-
cluded you better not have any
thought of them. However if it
should be better use both tickets
to bring you three here and I will
still be accountable for your
return home. I want you to have
the most rest. I can't rest
you in your own home because
I don't know how, but I would
love to shower blessings on you
in my home. If you could have
come sailing all the fine gold could
have kept house. Think what you
best do. You know I love you dearly
and all of yours - Mary. Tuesday
