

Aunt Ellen, for a wonder is sitting
down sewing. Many of family
Augusta, Mrs. Larned, twins &
nurse have gone to Water Gap
today, to morrow they expect to
go to Lake Hopotcong for the
day - Aunt Ellen I expect to
go to Water Gap to see Cousin J.
as soon as Joe returns. How
is Sam & how are you feeling?
Did I tell you that Mr. Parks for
messy of Hullville preached for
us. He was pleased to hear about
the Beldens, made many inquiries.
& said Mr. B wrote to Pres. that his
letters were read with interest & he

prayed for
I have a
new preacher
nearly every
Sunday -
I am glad
my preacher
is a wife
I have been want-
ing to write to you for a long time
but have always put it off, until
I fear it may be too late. I suppose
you know that Katie's Gus would
Thomson's sister is here on a visit
she expects to go to Lennie on Friday
this week. You know you spoke
of sending that little white cloak
that was given to Evelyn when
baby. if you have not otherwise
disposed of it perhaps you will
send it to her while she is
there she will probably stay

Friday PM.
Sept. 10th 1895
Dorothy
Aunt Ellen
Love

a week, I am sorry I could
not have brought it with me
& forgot to tell Mary about it
Send it immediately or it
won't be worth while to send it
at all. She spoke of Kate
wanting a cloak, I think
if you address it to Jay at
W. N. N. Brighton Station & no
it will go all right - I haven't
learned the No. yet but it is
not a difficult place to send.

We like Augusta very much
Carrie calls her the Hutter. she
is full of animation - Has been
teaching in St Paul Minn. but

as her sister is to be married
this fall her mother wants her at
home. It is quite a trial to her
although she is very fond of
her mother. She don't like Kansas
& she does love St Paul. Joe &
Clara are off on a wedding tour
left on Thursday. Every thing
is moving or rather lying
still, as usual - we are all pretty
well & miss Carrie awfully -
After the cousins visit on
the 17th next they expect Dr
Wilson. How do the children
like Public school? Have you
written to Dr. Lifferts?
