

My work & come
down. I do not
know whether E.
has a center piece
for the embroidery
but any thin
thing will do

Drink the milk
cold. We think
it is so much
more palatable

Friday 6⁹

I received this note
from Jane today
& send it on altho'
she may have
written to you. I
think Jimmy will
be here by Sat,
Ere, and I am
quite excused
as to when she
will go to church

I hope and pray she will
feel inclined to go to this
Presbyterian, or Episcopalian
account, C. S. has made
a little coolness between
the Sisters, I trust all
breaches may be healed

I wrote you a long letter
yesterday so have nothing
to say - but that I love you
and all the dear ones
at your house, learn
is on front porch & is
calling for me & long
