My dear Mrs. B. Adley:-

... Mrs. Crafts informs me that the school bill now pending before the state legislature has one clause that will do away with the law for temperance instruction in the schools. She thinks we ought as a society send a protest. Could you come to a meeting of the executive com., to-morrow or Thursday, to consider the matter. Please call me up by phone early to-morrow so that I can call a meeting.

Sincerely yours,

Etta M. Wright
