I suppose our
Dear Ellen is with you by this
time. I sent her a letter of
Clara's written to me, which
was my mistake. Clara is so
particular about not having
her letters sent around that I
wish she would destroy it &
say nothing about it. I really
don't know what was in it

I hope you are improving all of
the time dear Ellen are you trying
to take good care of yourself and
getting strong, you know we cannot
take that long journey to Texas
unless you are real well, This
May go home this summer, I know
she longs to and you all want to see
her and as Helen will not be near
her it will be rather hard I suppose
for her to be there so far away tho'
we thought it would be lonely for
her to be better acquainted with
that country and perhaps go to
Alaska, We are all pretty well &
I think there is no news of any
kind. Char came home on Thursday
