

Thursday afternoon

You will see the immediate
response to your "Question", ask some
more, it is so easy here for me to fill in.
It is a perfectly lovely day - Oh how I pine
for you Betty Ann, but we are exceedingly
happy here - I am so well - how my head one
doubling up tenning since I got here - some
in Hot Springs - true - yes?

We go to hot quite early - sleep well - eat
there every time delicious foods - and now
the weather is so perfectly beautiful there is
nothing left to desire but, you, Friday and
the advent - Sister is very bright and full
of fun, says she is cross - wait - she says
all these letters from friends expressing all
lots of love are my niece, but my Aunt the
people do something to produce results in
her special line now - so the teacher gets
stated - but pray to assist.

in the yard - peacocks are
a daily offering from the boys.
The views are so, so beautiful.
I cost in this house 17.50 a
week - so does Santa - the
top less. The sewing machine
3.00 per month - It really
has paid for itself already -
I seem not to work at all -
but get a pile done at that.
Every day is so restful and
so smooth running - the
boys are the best little boys -
they receive praise from every
one - it is nice they can -
Santa has many complaints about
their bringing up. He really is much
better again - his tone is some help

2/ The boys are out on the
lawn playing - no hats - little
sleeked servants - so happy -
There is a small new puppy
- yowled all last night -
but he is cute and diverting
The boys love him - he plays
to the little boy of the house - a
cat 13 or 14 -
The birds are gorgeous - colors
so big breasted they are like
to burst as they strut about
our Cardinals flying about
in the trees, still unbidden
with beams - I saw them
at once this morning - fellow
birds too - plenty of squirrels,
