

Dear Aunt Mary -

Just a line to you - a secret  
letter from you to Jeanne Marie  
asks about Mother's gold thimble -  
I haven't any idea where it is  
- but I remember her using it  
always when I was a little girl.  
Did she still have it when you  
were in California? I can't  
remember her with it, in the  
latter years of her life - "

You also referred to some "Missing  
diamonds"? What were they &  
what about them? I don't believe  
I've ever heard any reference to  
"missing diamonds" before & I should  
like to know what it means -

My affectionate regards for news  
from both Jeanne Marie & Mary  
Muller -

It's just gotten thru Spring  
house cleaning - mudous -  
walls - curtains & floors waxed -  
up stairs & downstairs -

The children are all fine -  
busy with school, music etc.  
The baby, Jeanne Marie, is now in  
toddies! She is the most adorable  
baby - so fine & fat & strong -  
a year & a half old -

George & the the children & I  
went on a picnic - fishing expedition -  
violet hunt - yesterday - it was  
lots of fun, tho we caught only  
one small fish!

Love to you all
