Sunday Afternoon

My dear Mary - your letter came before I
went to church this am. Now Willie
I have been talking the matter over.
Willie has a pear + it seems good to me
though I doubt if it suits you. He
says it would be much cheaper for
you + for Willie - if you don't mind
the free library - for you to stay in
Oberlin + take a room about
+ board until the 7th is done sure
go + have the whole house + unless
there is a good maid or I take them
(which Willie says I could demand)
unless there is a maid me do the
work. My only charge would be
that you sleep at home. You
could go to library in am., eat lunch
+ possibly dinner down town, +

not be at 287th till you were
through, pay in three weeks.
I'd be glad to do this. We'd would
take a week fishing in Canada
while I was there. He says a
week is all he'll get this year.
We'd it would be a week or
half as he would drive, taking
two days extra for that each way.
He says I can go to New Haven
but he doesn't think it a good
place & really I'm not sure I'd
so keen about it, though I would
love to take a vacation alone with
you. May, I would set the table
like for company three times a
day if you will do this & have
every thing as you wanted it.
I don't think the sun see how

I could get off ⁽³⁾ to New Haven by
Tuesday if I were going to go. My
sun clothes and in a dress
state, not wear a clean dress. ^{of}
mine is absolutely in rags. ^{of}
course I started three dresses & 3
pairs of bloomers yesterday & two
night gowns one of which one
dress outfit is nearly done.

It seems to me I never have a
chance get ready for anything
I always have to do everything
at a minute's notice. Now
you will think I don't want
to go with you or some thing
like that. I do but I'm not
sure I really see the value
in this for either of us com-
pared to what it would cost
In a way if you went would

it just be (14) better to go
alone & have all your time
& attention for your work as
that is really the thing you
are going for.

I believe you say you
need more of a library
than they have here. ^{Oh}
couldn't you come here and
go to this library the same way
or be at the house? ^{either}
place I could get you in
car & bring you home for
a nap if you wanted.

Couldn't you try this if
it doesn't turn out well
then go to New Haven?

This plan wouldn't just do

add more people & so
more work. I'm sure if
I went there with that
idea. In case I did this
I would want to come the
end of the week ~~so~~ ^{not} I could
have the car as well need
mine this week. He is willing
to not take it but he thinks
if he doesn't have them
regrish his car now that
they want do it - that is
for nothing. He told me
yesterday - he opened the
subject himself - that if
I wanted to go to Dublin
he could get me Thorsby
to drive with me to Rocky
River & he'd pay his way

back. May (6) be this way
he'd go himself and see
mother & maybe you
would come back with
me or I'd find some body,
or he would.

Wee doesn't think that
would meet a nurse &
really I don't myself —
as far as I understand
matters, I should think
some companionship &
a sympathetic some body
to help share the worry
is what she needs most.
Of course a nurse would
give that. It surely is hard —
awfully hard.

If I don't do this we
can't go of taking a
boat trip, just one
week. Bill's work is so
arranged that we can't find
two weeks together anyway.
But I think he'd prefer as
he'd go to Canada fishing
with me. Thereby, yes, I
have the + of not-taking
a vacation this year to
save on Padd's but we
don't agree to it any
way. If you care for
this plan would you
want Helen? I don't think
she'd want to go + I don't
know as I'd want her if

She didn't. She is to
get one week's vacation
with pay this year
which of course would
have to be while I was
away where ever I went.
Will go of eye.
Ellen

I got that Columbia
book from Mary (John-
man) yesterday. The
said "Do you want it
for Mary, Ellen, Auntie
I said yes she said she
thought they'd like it best.
She thought it would be nice
to keep it in the club. I do
feel so badly over your
not having had it before.
I'll send it or let it go
soon as I hear from you
about your trip. ^{you}
say, wonderful. ^{you}
think Dr. Staris would have
written me? I suppose so
will eventually. I believe she
likes that - about letters.
I'll get spin later about
clubs just - for it.
