

Dear Somebody, we got here yesterday  
and very tired & sick. We went  
by way of Akron & lunch road  
improvement etc.

Mother did not see us yesterday  
at any time he was there. She was  
very pathetic in the end with her head  
hanging back. Jack & Cora & Mat & Ed  
were all lovely.

I forgot to take out Puck's clothes  
from lunch basket, so brought them  
back, forgot to take the croquet club  
& scissors & left M's brush, which  
can't be used without etc etc.

And the making game play was  
not so quiet a piece that I doubt if  
it did a bit of good. Anyway the only  
help I guess would have been dis-  
cussion there & after having you  
get & embarrassing me I guess  
it was no value & they were want-  
ing to go to Berlin just for that. The  
me & two things we did speak of

with that here some medicine. Oh how I love  
the world for a piece for me! It would be  
quintessence of a life to.

Dear, I did want to get Puck's hair  
shaved, I did "emerge" in the morning.  
I had his the morning go.

I had to believe I'd get a good look over the  
day with some, a set of questions.  
I had to believe it was too much for you to  
have got - had - long hours for us. It's  
hard to.

Dear Mrs. Helen just called me. It seems the  
house is going to be (and probably not)

for me) has his & I want to see this morning  
of it & I want to see the baby has always been  
of it & I want to see the baby has always been  
of it & I want to see the baby has always been

of it & I want to see the baby has always been  
of it & I want to see the baby has always been  
of it & I want to see the baby has always been

of it & I want to see the baby has always been  
of it & I want to see the baby has always been

can work over. Thank you are  
very much - & if I can quit  
any way to get it typed - after  
seeing if I can see any way to  
improve it I guess I'll proceed  
to the contest. but I suppose  
only to be disappointed. It might  
serve to get my name upon some  
people as some addresses will be  
on the list of judges. The only  
points I considered were the  
conversation + structure. I don't  
know about the structure. The  
conversation is easier to fix.  
But if the theme is pointless  
the play is not satisfactory enough  
to me myself to make me want  
to send it. I changed it so much  
that now I don't know where  
my help in it is in character  
with every other thing. And I've  
read it so much that it's just  
gibberish to me, tho' if I read it

to know me I seem to get some's review out -  
I don't see you are pretty well satisfied but  
and thinking of it I've seen, also want to do it  
but the difficulty being the money part. I do think I'll do  
to a big writing camp. I've like that girl  
possible to do it - right now like that girl  
I'd like the man however - I can't help it,  
I want to go to see you all - every one. I'll  
I'll see you know I will miss you & Alice.  
Go I could anyway I get a little however  
thinking how far left to write. I'll send you  
me so much love that you will! Of course I  
don't mean I'd want her to keep on living  
that! Our's & now I'll keep the leading part.  
I'm in talks about her so much - all love  
her so. They love each other like members  
of the same family. I am glad.  
The same family. I am glad.  
The same family. I am glad.  
The same family. I am glad.
