Dear Carrie:  
You have no idea how  
pleased I was to hear from  
you: but in order to pre-  
serve my dignity, I suppose  
I should not return  
such a hasty answer, seeing  
you all let me wait so  
long. You wished me  
to write four pages  
about myself, which  
ought to be an easy  
matter for such a  
selfish mortal as I am,  
still I do not think  
I can

They are all well at much dearer's & send love to all.

Well, I am very nicely settled at Mr. F. C. Nettletons as a sort of a governess - that is I only take charge of Grace's studies, and every morning three other little girls come in to recite with her. It is ever so much easier and pleasanter than to be the servant of so many patrons in this town of severe criticism. Mr. N. has a different house than when you were here: it is much pleasanter. Our school-room is up in the tower, we have a pleasant view, plenty of light and fresh air. My only drawback is Grace who is so very much opposed to study, however

pleasant I may make it. My mission band is also flourishing being composed now of entirely young members, the older members having withdrawn, some of them, because their studies in school are more difficult and they think they have no time. A poor reason! I would have a lovely, easy time in this respect if I had only children to deal with, for they always like to do just as I tell them, but the indifference and opposition of the parents! However we raised about \$45.00 last year for the missions. - We are just now in receipt of a beautiful letter from Dr. Henry Jessup. I was glad to hear that you are taking a rest and
