Ithaca. N. Y.

23 Sept. 1867

Dear Ellic

I intended to answer your letter at once, but have been so much occupied that I have not even written home this week till today. You are correct we are feeling poor now, all the same will send \$20. whenever you want it. I hope it will do. I wish good to go to C. It is very distressing to be

short of money now, for
I should so much love
to be of more help in
this matter. We have
our house to furnish, but
that is not going to be
a very great expense
& it is fortunate that
it is so, as we have very
little money that
we can get at.

I will write you
from Kokomo when
I have a moment to
spare. Love in

would have and really could
write any more now, though
I have several things I would
like to write.

Love to your family
and yourself.

E. J. Henning.
