

Edgworth Cottage Apr. 6, 1811.

Dearest Mother

I have been very busy since I
lost our you looking for a pair of horses
which Mr. Hunt gave me an order for. They
are so scarce and high, and to get good
good looking, gentle horses with some spirit
is not just so easy. I have had no less
than 5 pairs on trial and sent them
back for some fault or other, but I
now have a pair that are all right,
so you may see us drive up some time
last of next week or first of week after,
as for various reasons cant go before
them.

We are having a miserably rainy
day children have been drawing. That
Katherine has quite a little talent. I in-
close a landscape just turned off from
memory, see if you can recognise it?

I am so glad this horse question is settled, I was afraid I would be able to get anything at any price that would suit the Hunt, but have a grand large pair of blacks that I can furnish reasonably considering present prices.

We have been having lovely weather flowed our garden and were going to plant but then it suddenly got cooler and has been for the last few days. I was out an hour 1st of April and caught 3 nice trout about 11 inches 10 in & 6 inches respectively, were fine eating.

Hope you are entirely well again and will take care of yourself.

With love from all

Your loving son

John
