

My dear Willis,-

I have been home for three days and have two more. Maamma has been very sick since I have been here and before I came. She is better than when I came, I think. Dr. Dudley Allen of Cleveland came down to see her and the plan is for her to go up to Lakeside hospital for a while.

How are you getting on with your writing? When I came home I have seen letters about your trip and position, but I don't feel anxious about it. I do think it will be a good thing for you to get that done.

I haven't done anything since I came home but think about Maamma. I have so little time any way that I couldn't plan to do much. This morning I went out to church, the only time I have been out except to the post box and Mrs. Davis's. I want to have all the time with the family and Maamma is getting used to my being home. I can be with her

She asked yesterday  
to you lately and  
was going to write to you + Mary  
both today.

Selden has gone to <sup>to</sup> Brother's hood  
meeting and Gracie is up with drama  
ma and Amy up stairs + it is as  
quiet as we never ordinarily have  
here, too quiet for a week per-  
haps. Today is Easter and cold. ~~Very~~

We have had a lot more appreciation  
for Easter than this. ~~But~~

summer were coming +  
Mary sent you the clips  
and Taylor's death, did  
it awful? And it  
strange, because he never seemed mean-  
choly although he was so quiet. But  
was very different from Harold  
Wilson for instance. Then too he  
so careful of his mother.

Selden has a camera as you may  
have heard and is doing very well at  
taking pictures, developing, and print-  
ing them. He sells them some what and  
we have the camera for  
it was nine dollars.

... many is having a pretty  
time of it, isn't she? I think she  
now. This sure a second year thing  
would go easier and I do hope the  
will ask her back. The says are  
the students - many I mean - hate  
her. Of course she always thinks that  
but she says they make no sense

The position is awfully hard  
I think its outrageous for the teachers  
to stop their fingers in her business  
what she should do  
she shouldn't. I don't  
they ought to be in the  
sure that they do any  
my - my

... a crazy id  
be there all the  
never to dare  
only reacts  
I can't see any  
can't be gone in  
says she never has  
isn't any in  
fun.

Did you go to  
to please me next

I think Maama feels restless to  
have me and I am glad to be near  
home. Maama says Maup's experience  
makes her feel that Greenland is a pretty  
good place.

I hope you are well, writing, and  
enjoying your work.

Good bye for now.

Your loving sister,

Ellen Perantou Bulden.

Maama the thirty eight  
hundred and seven.

I think I put it too mildly about  
I think that she was  
na that she was  
time. It is hard for  
to have the house  
to on her re-  
reason why, and  
the evening. May  
any fun and that  
ay for her to have  
at the gas back  
again? I am.

Return to E. S. Bee  
Gundah College  
Gundah, Ohio.

Mr. William H. Alder,  
Lund  
British Columbia  
Canada.
