

Friday morn.

Dear Ellie,

Father has told us about you. I am glad that you and Carrie could carry out your wishes, and hope you all had a pleasant time I should like to hear about the reception as well as the concert. Mr. Cline came in to Mary's I should down after the women meeting so as to go in the evening, and told me that he wanted to write to William about several matters but particularly in reference to Mr. Dally's leaving Bel. An dear old friend, Dr. Bail was here this week, he inquired about you all and said that before he left Orange

he had told some of the
members of the Church at
Wilm., & recommending
him, he said a great
many pleasant things &
wanted them to write to him
but as he did not know
your address he could
only say that you were
living in N. York. The
Dr expected to call here
the morning of the day
he left but he did not
do so, when I was going
give him your address
& I would write to him
but I have forgotten his
do you remember, or
if Mr. thinks best to send
him word that will
be just as well. The
minister has just gone
& now, I think, is the time

I would write to C but she
can take him - We were so glad
to get her letter yesterday. Harry
was so happy abt the getting to the
concert.

The feet of the night drawers
were not put in right - it
would not be much work
to alter them if you
think it worth while to
send them back I will
do it. instead of the sole
being sewed to gather the
straight part of the back
of the leg should have been
sewed which forms the
heel this gives more room
for the foot & his length
for the leg which would
be a decided improvement
so.  doubled & sewed to them
is no seam on the
knee, as we made

it. The whole foot has
to be ripped out, Carrie
dear, will you correct
the mistake. The seam
in the ~~seam~~ under piece
must be taken out, &
the leg opened long
enough to put in the
piece straight, in other
words just as you have
seen me make over
stockings, I wonder
I did not understand
for now it seems so simple.
I am trying to help
Lulu sew, but make
slow progress -
Do please not let
this scrawl be seen,
Covingly Mother
Joe is waiting

Dr B. is very anxious
to do what he can for you
he spoke about the matter
of his own accord, which
was very kind. He had
just ret. from Scranton
