interesting letter came last  
but before I finished reading it  
I heard a call. "Come mother it  
is time for us to start, he went  
to open house to see a "Play" and  
hear some music, this morn,  
Aunt Clara & I feel pretty well  
used up, but your lunch ju was  
up off, I think about 50 'c  
& went to the Farm as this 1 Apr  
he had a new man to hook in

To night, there is to be a Chinese  
entertainment of some kind at Bishop  
Chapel. I do not know what it will be  
It is gotten up by one of the S. School  
classes, adm. 10<sup>c</sup> as I suppose it is very  
worth only that sum. It must be very  
in con. with missions, I suppose. This  
is quite a missionary church, the  
ladies got up a splendid Prog. for the  
monthly meetings & they are well at-  
tended, always refreshments. We were  
quite amused some days deep up when  
our next neighbor, she <sup>said</sup> that it would  
soon be the style to serve or eat in  
the regular church service, it may  
be so. Nothing is so strange that we  
are not surprized at what happens,  
in these days of progress & rushing  
I am much interested in your scheme  
for passing money for the good work, I  
think our family are not good beggars  
but still I think you might try to do a  
little in that line, I would wish  
to much more, I think another trait  
in our family: "Pride & poverty" We have not the

faculty or the gift of Gab which  
is really a very important  
thing to cultivate. During a line  
I believe is going to drive over here  
this morn, I do not know any  
of their plans for the vacation  
but, believe they expect to be very  
busy, dress-making &c

I hope to be with all you dear  
ones before very long' it will  
however depend upon Aunt Mary's  
plans & arrangements. Good  
bye, to you, & dear Pease and  
all the rest, The children want  
to know, why you, all, can't come  
here & see them, They are longing  
for Edgehurst & if it can in any
