For their Semi Centennial of our contributions are expected of Service from two or three of the old Ministers. but to give our Presbyterian interest a good Show in the community a few of the younger clergy ought to be here. Can you not come up and spend the day with us?

It is very important to mingle with the decreasing elements, something fresh, young, sparkling. Any religious theme that occurs to you could be used.

It need not be historical a local in its Character.

I hope you will be able to come.

It would be well to give this
notice circulation in your Omaha
or Publ. as there are Cambridge
people living among you.
