

Wednesday 11 Am.

all very glad
to see your letters.

My dear Millicent:-

Aunt Jennie left us this (Monday) morning, having only come Monday afternoon. We all went to the Station, & are pretty tired out with so much visiting & talking for two nights & one day. Aunt J. was lovely & we had a fine visit, every way delightful. We took quite a drive yesterday & made some calls & last evening George & Marshall & Mill Taylor called. I did not have to make any hints & mortify my children, because you know the Kilbons keep correct hours.

They were much interested to hear about you & Ercelina. No mail has come for you since you left. We trust by this time you are well again, & business looks brighter. I suppose the heat, & indigestion, & the whole new situation put your system all at of order. The Co. ought to make things right about your time & your place.

Selden is mowing the lawn, having just had the mower fixed, altho' it does not suit him very well. I won't write more as I feel dull & sleepy, visiting so hard with Aunt J. M & E are taking a nap. ^{Your own} Loving Maamma.
