

My dear Willie,-

I'm wondering how you are getting along <sup>at</sup> this time - much better, I hope. It seems quite an age since we have heard from you; but I suppose you are thinking the same of us.

Aunt Jennie came last night (Monday) and I think she is going to stay till tomorrow night. She says she is so sorry not to see you and Cora and I'm sorry too that she couldn't have. We are glad to have her at last.

for we began <sup>2</sup> to be almost  
afraid she wasn't coming  
to Oberlin. Adelaide is not  
with her but has gone to Selma  
Alabama with a friend of  
hers. I wish we could have  
a visit from her too.

Ellen and I are trying to  
do "Mamma's system" reg-  
ularly every day and are  
getting on rather nicely in  
spite of the fact that we don't  
do it quite every day. I am  
now on the second plate of  
the second week's work &  
I'm going to hurry up things  
a little more. There are a  
good many things to do but

It's nothing to what we have in town here. I  
don't see how they have & realized and I don't  
believe in any kind of.

We have been reading Amos' letters &  
her life among the Benjamins in the "The Christian  
Magazine" and it is not the most interesting  
things I ever read. really my reciting of  
so justly told. I would give you a copy.

We just got your letter & I'm surprised  
about the date having been sent there. It

be careful & not get the small-pox. I'm so afraid  
you will & what should we do then? I hope  
you are much better in health. Too bad you  
~~having~~ been having such an uncomfortable  
time.

Lots of love - We think about you all the  
time so don't be too lonely -

As ever your sister -

Tuesday morning, July the <sup>thirteenth</sup> ~~fifteenth~~ - '82.
