My dear Ellie -

Your's M^{rs} letter's came yesterday, but I had no time to ans. but got my tickets thro' to C. Sps. We leave here 3:10 Thursday P.M. arriving in C. Sps. Friday ~~at~~ 11:30

I was deumid I did not have time to half ans. your letter, but now will say - I will be very thankful if you will see to securing me a baby carriage for the week I am with you - a nurse would do no good for that length of time for I would have to instruct her & it will be easier for me to take care of the baby, unless I can get a first class one who would want to stay with me during the summer, one who could do all my washing and ironing besides

Despatches were too poor to
ever think of buying one from
the Street - Wallace (Sister) will
go for her to R. with me and
keep me with the children to go for
them to Corlaund where I will
join her spending a day at
each place, going by way of
Shahua from C. Sps. I don't think
I can stay more than a wk.
for I am so anxious to see
mother I can't wait. You will
be shocked to see one I have
grown so stout - Best Address
kindly say - the more that is
of me the better.

With love and
hoping to see you all in
a few days I am your loving
sister Jane -

I will want to get a big washing
done in C. Sps. if I can. I
that I have to do at all my
stopping places -
