

Love from Mamma. Will write another day -  
very interesting, -  
Four letters.

27 West College Street,  
Akron, Ohio.

My dear Willie, -

Every time your letters come we all talk about what a good letter writer you are. You certainly do - make interesting and well written letters. You are in a great metropolitan area - is it you. Do you think it really do in Rome as the Romans do? or do they set up in manners that you feel awkward? I am interested in this bridge you speak of. Do you call her "Bridge" and does she call you Will? I think she must be quite a help with her tongue and her knowledge of what you need to know. Is she the one that plays the organ? You seem to keep up good courage and it makes me feel so glad to hear you feel with such determination when you have found things to help. Are you thinking that it is as you say it might be a Paradise for Careless ones? Of course you

couldn't answer all these questions  
if you don't want to.  
What do you think, Mary and  
I are really learning of play-ten-  
nis! We went up to Bank, after  
George taught us for an hour or  
so and we played Bank, though  
so far we have only practiced  
getting the ball over the net. We  
have only been once and my  
great concern is what to do about  
getting a racket. You know I had  
thoughtful and I think it is too  
cheap for any thing but the  
boys' rackets. One was near-  
shells & I don't know who the  
was. But they wanted us to go.  
You know rackets are very ex-  
pensive.  
I'm afraid if you had worked  
on the roof it would have been  
a poor job for they have not  
done any thing in this street or  
kitchen for a long time. I believe  
it had been because they

could not get any more of the paper  
to keep.  
I see one man talking of carrying out  
Dillon is just wild stuff. I don't  
know yet. We have not any more definite  
plans yet.  
I shall be able to get the teaching  
Dillon is  
I think we are getting quite a little  
working in the summer and we are  
making plans. I don't know how  
many more plans and I don't know  
opening to get a lot more. We have  
some things but I hope to get more  
some time.  
Mary and I are going to get  
some more of the paper. I believe  
if we can get some more of the  
paper I can have some more of the  
paper.

think it must have died because it was  
very furbly and sickly. I don't know what  
because of her but she was not too fond  
in the morning after we had put her in a  
comfortable basket the night before she having  
been sick all day. We had given her to  
for the dog but they would not help  
her keep her. He came back with her  
all wet and bedraggled looking and he  
said she had got in their dirty barn & he  
washed her.

Mrs. Stubbs is here in Overline and has  
been up here twice. Mrs. Stubbs may come  
this H. & she down and has not been all

to do any thing for two years I think. James  
graduated fresh of Yale's year.

We enjoyed Aunt James's visit though  
she was only here one day really.

Love you for that man to get the eyes  
out of the pictures. Good bye. Good luck to  
you. Your loving Sister, M. Allen.

Mr. William H. Belden,  
Westfield,  
Ohio.
