

gave up one study so as to find time
to do it but, well I don't go anymore.
I devote about three hours a day to football.
The 'Varsity defeated Hidelburg today
40 to 0. Pretty good game. We had
about 30 men out in suits. Made a
fine showing. Got hurt two weeks ago
today so that I haven't been able to
be in any scrimmages since, have
run signals and etc. but on Monday
I expect to play and play hard all next
week. If the Varsity carry a 'sub'
tackle I stand a very good chance
to go if the folks will let me. Here this
is enough of this. No, Will, Julie has
not fallen in my favor and don't
think she will very soon but she
seems to prefer other's company. Don't
blame her any. Oh yes I study a little
occasionally. Pure really is very little
run going on in U Berlin anymore.
Had a social up at Merrill's other eve.
Alder's grandmother is dead. Have
a new girl in English class

My dear Will,
Have been rather in a mood I will
confess. How are you getting along.
Really it isn't right for me to write
to you at all after that letter you
sent to Nellie. Will you don't know
how much I wish you were
here in U Berlin. Merrill is a little
'infish' about some thing and I
guess Nellie prefers Walter Hunt's
company to mine from what
I hear so I am about friendless. I
wish you were here. I will try
and be good and write of times
than I have before. For several
weeks I went down to Nellie's every
night to help her on her Algebra

It's all right to. Quite pretty and very nice. The S. team
is very light. L. S. Pelton. L. T. Dudley. L. H. Rugg. C. Tobin
R. H. Ward. B. Radley. R. T. Greene. R. C. "Frog" Wilson. J. C. Waters
L. H. Spiers, T. B. Oliver. R. H. Leasonhof, and H. Waters
has a position regular in the line front where.

Percy says he wishes to be remembered to you,
My but he has got a fierce looking eye. was
sickled Wed. not quite as bad as the one you
had last year. Wish you would say what you
want to on paper. It will do me any good I
certainly need it and I am sure it won't hurt
me any. Never worry about my getting mad
I won't until you tell me to and I'm not sure
that I would then. Oh "Lucy" is all right. How
I wish I had a "Lucy" some one to really and
truly love me. I get so lonesome some times. Of course
you never do. Nellie speaks of you very often.
She has after speaks of how good you used
to be to her last year when you were taking
Botany. She studied all this summer and
never let me know until just about time for
schools to begin. Have dates for all foot ball
games out as I was orderd out in suit it
isn't quite possible to keep dates so think I
had better release her as she probably wishes
to be any way. Don't be afraid to say it on paper
if it is anything you wish to say. I won't
be angry.

Your true friend,
Harry.

Mr. W. A. Beldew,
Plain City,
O.
