### BRITISH COLUMBIA TIMBER LANDS

Vancouver, B.C.

Dear Will:-

July 12, -07.

I sent you by last boat ten cases of no.74 gasoline. I cannot get away at this time. Father just came and I have a letter from N.D. to wait for him. He is due here a week from today with two other New York men and I may go over on the west coast with them.. Go ahead and make a trip wherever you please. If you think best to go to Smith Sound write me at Vancouver to that effect. Please do not send any more of the descriptions to Kitto. I told you all of those things were to go to us at Vancouver. Did you forget? Everything is tight now but I think we will pull through all right. Get out and dig in. I'll see you later, I cannot tell when now. Harry is in Victoria today and I haven't any idea what he will do. I wish I were with you today but it is out of the question. Write me on Tuesday boat when you will meet me and where, and oblige. You have credit at Merrifield's for all the groceries you will want. If you want anything he does not have send me a list on the boat and I will send you anything you wish. I hope

I have made a sale of one tract we have on the West coast. With best wishes until I see you,

Yours truly,

Percy D. Hillis
