Dear Will:-

Congratulations on attaining a position on the All-Ohio team! We're proud of you. I felt sure you could play good foot-ball if you would only chuck your studies and apply yourself to the part of your college course that really matters.

Well, here I am in the town of smoke and hable to leave it à la Maynard Taylor if I don't get a chance to go home soon. By the way I am staying with the same people that Mr. Taylor stayed with for a while. Do you know of any peculiarity about him - such as would prevent his marrying, for instance? People here seem to consider him decidedly peculiar & I have heard that advanced as a reason.

I am with the Carnegie Technical Schools now. Studying Civil Engineering and tutoring a bunch of boys on the side. I am a bright and shining light to the houseful with whom I am staying. You ought to see me in my plug hat & frack coat I look quite Caskeyesque. I wish you'd write to me. There are

at least two things I'd like to know  
aside from news about yourself.

1<sup>st</sup> All about Amos & her folks.

2<sup>nd</sup> Merrill's address.

I haven't heard a word about Amos  
since summer - my own fault and  
I'm sorry but that don't do any good.

I have a wedding present for Merrill -  
or rather for Hilda - which has been wait-  
ing for some time. If you'll send  
me their address it may get there for  
Christmas!

Well, if I want any hot water tonight  
I'll have to snag the bathroom now.

Remember me to everybody that knows  
me. If anybody wants to dim me give  
them my address. I'd like to hear from Beth  
Marcy and Mary Noble but I am very  
sure I want. If you see either of them and  
want your ears boxed, tell them so. If  
Mary is not in town can you get me her  
address? Tell Harry to write to me, when  
you write him - & Gertrude Carter. You  
can see plainly that I'm homesick can't  
you?

As ever your friend

A. P. Hollansbee
