

Seattle, 3-10, 08.

Dear Friend Will,

Enclosed find check for \$300. Hope this will find you well. Percy reached home Sat. There are nearly 90 men at Taylor's mills now who are out of work and so the City built a camp and sent them from the City here and they are clearing up the street below us at the foot of the hill. They were men who could not get work and the people out here raised the money and put up the building and bought the tools and the City boards the men and pays them 25¢ a day. They have been here about three weeks and have the trees cut away and cleared and now are levelling off the ground and opening the street. With all best wishes, I am

Dear Friend Will,

I am just getting away to the City so cannot write much of a letter,
I enclose 3 checks for \$100 each. We are not finding any sales these
days even at very low figures. So money is scarce. I send it this way
so if you do not have to cash them all at once you can string them along
for a little time. With all best wishes, I am
