

121 South Professor.

Dear Willie,

Just a line
to wish you a very
happy birthday and
many returns of the day.
I am a little behind the
times I guess for it takes
so long to get word to you.

I wish I knew what you were going to do but I don't know your plans enough to advise even. I hope college is on the program as Mamma says you have been thinking of it. She wrote she had a letter from you but did not send the letter.

I am at Mrs Fillinghaat's new house across from Lord Cottage. Here I room with a new Freshman whom I don't like. I was blue with Lucille T. but she got into Yale at the last minute + so I took whom I could get. The room is small, on third story. We eat at Lord. There are about

ten girls in the house.

You know I visited two weeks at Huntsburg and enjoyed myself. College opens today. People out there were so interested in your life as I tried to tell a little about it to them.

I wish I had something lovely to enclose for you but there is nothing but my love and best wishes.

Your sister Evelynia Oberlin Ohio.

Sept. 17. 1907.
