

Dear Will

Here it is Wed.  
morning and I am  
writing to you first thing.  
One thing I forgot when  
I promised to write to  
you and that was that  
you were to answer it  
before reaching Seattle.  
Now if you don't agree  
to that you can't read  
the rest of this interesting  
letter. It is simply  
pouring down rain  
today I don't when I

respectable and the rest of us  
were up stairs dressing. The  
worst of it was that we had  
had our dinner at noon that  
day because Mrs Church couldn't  
stay until evening so we had  
to go down and break into  
one of the stores and we  
had to get them a dinner.  
We had a very pleasant  
evening tho went up on  
the stand pipe and then

have ever seen it rain  
like this. Mrs Church  
was up to spend the day  
yesterday and in the  
evening Mr and Mrs  
Hamilton came up. You  
remember my inviting  
her up to spend the  
evening with us Tuesday  
well about half past  
six she and her husband  
came they thought we  
were invited for dinner.  
Edna and mamma were  
the only ones who looked

took a long walk around  
the hill. I was going  
up to take Mr. Lovell  
out for a walk this  
morning and now I  
can't. Legtha is going  
over to Tacoma to stay  
until Monday. I hope  
you boys will have  
fine weather and that  
you were awfully good  
to Mr. Gray. I think  
I'd like him. I was  
terribly ashamed of myself  
when you were here

Will be lying around  
groaning all the time  
but when you come  
down again I'm  
going to be as good as  
new and I'll be so  
chipper you'll hardly  
know me. It did  
seem good to see you  
again even if I didn't  
act very agreeable. The  
next time you come  
will catch some fish.  
Will it is just simply

I'll tell you the story. Now  
be good until you get  
back make here to cigarette  
and whatever you do  
don't get mad and sleep  
all you can and make  
Harry cook. As we your friend  
Fannie

thundering and lightning  
terribly just a regular  
eastern storm. I like it  
wish it would thunder  
so hard it would just  
shake the house. Mr  
Carpenter says it is  
because the forests are  
being cut down so  
fast that we are getting  
all this thunder. I am  
going to finish that  
book this week then  
when you come back
