SEATTLE,

DEALERS IN

BRITISH COLUMBIA TIMBER LANDS

Dear Bill,

Well how is school starting off, does it seem good to be back or is everything changed too much to be natural. You must have been quite late getting there weren't you. Have only had one or two letters from Percy but I judge he only planned to get to Oberlin by Sunday.

Well I hope you will have a good year and lots of sport, things look rough ahead for me this year but then-- well I have to keep going that is all there is to it. In regard to the balance of that hundred that I asked you for, really Will if you are going to need it at all don't let me have it, or if you can let me have thirty five more it would be a great help to me. I am just going to town now so that I can't write more now.

Expect to go up the coast for a few days on Friday and if I do go I will probably write you again before I leave. Had a bill from Thulin for our board bill, wrote him that we had paid it and he charged us fifty cents a day for fifteen days for the boat. So long,

Your old pal Harry.,
