Dear Will

Thank you ever so
much for your letter and
for the photograph - I value
both. I could cry my eyes
out that you are not in the
Glee Club - Can't you get in
Y any chance. Oh me, Oh my?
I want it so much for you.

Perry Hillis denied not so
last evening - but he just a
pettish, splendid fellow

both as to looks & actions -
I was charmed with him.
I think he will tell you of
his visit at our house if you
ask him - I had a necessary
meeting, and his presence
and what he did I am
certain must have been
simply from the Lord to
stimulate my weak faith
and broken heartedness at
so small a number of people
present at the service, much more
so perfectly pledged - I

Dear Percy did me a world
of good. And I am much
in his debt. He is coming
again in the winter with his
wife - to see us - I am really
very glad.

I wish all the Baldwins
could meet at our house
for the Christmas vacation
for a family reunion - So
we all should get acquainted.
I'm sure by trying to see
your Mother, after all the time
and all the way she has been

almost brought back from death
to life - I wonder if I should
know any of you please at New
York - I saw your Mother for a
little bit of a while the day
she reached Wyoming - not
since, & Ellen I saw the same
day -

I am not satisfied that you
only have made the first half
travels - I want the Glee Act
so much for you -
Be a good boy - the rest it
fancy - not used in concert

For it. Margaret wrote me a little and she says I can go "second-class" all right. She wants me to go through Salt Lake City and see her. She would come to the station to see me if I could not stop, that is, if she wasn't in class at that hour.

Mamma was out at the lake a few days and talked with her. Tomorrow Selden is going back to work again. He is to be working on the Webster house, a house Mr. Webster is building. He seems to be using all help like students and such people. I heard about you from Mrs. Fisher

need them, right away as soon as I get
there, otherwise I shall be very much
handicapped in my classes. So will you
please write to me as soon as you get
~~this~~ letter what you want me to bring?
I've got my books nearly packed now.
If you want me to, I shall be very
glad to help you fix up your room at
Seattle. I should love to do it - you know
I like those things. Have you found
your room yet? I suppose probably
not. But you are planning to go to
college; aren't you?

If you know any thing that would
help me plan my trip, I thank you
