TIMBER

Mr. Will Belden,  
Oberlin, Ohio.

Dear Will,-

Will you finish college by Feb. 1st, and if so are you planning to come out on the coast. If you are looking forward to business I should be glad to hear from you and keep an opening for you somewhere either in the camps or in the office.

We expect to let the contract of our house on Wednesday morning. We like Victoria very much. Business is beginning to pick up again and I expect to have 2 or 3 logging camps in operation in the Spring.

I had a very nice letter from Coach Snyder several days ago asking if I could get back to help for a few weeks this Fall but it was impossible. Write us a long letter and tell all the news you know and some that you dont know. I should certainly liked to have seen ya taking your sister in for her wedding. M. has gone up north along the Skeena River for an all winter job for me.

Edna has been in Portland for about three weeks with Fanny and Harry. Littleness and aunt Hy went home last week
